**For research use only.**

Applications	Species Cross-Reactivity	Molecular Weight	Isotype
WB, IHC	Goat	N/A	IgG1

**Storage Buffer & Condition:** PBS, pH 7.4, 15mg/ml Bovine Serum Albumin as Stabilizer and 50% Glycerol. Store at -20°C. Do not aliquot the antibody.

**Suggested Dilution Range:** 1:200-1:2,000 for immunohisto/cytochemistry  
 1:3,000-1:80,000 for ELLSA and Western blotting with chromogenic substrates  
 1:5,000-1:100,000 for Western blotting with ECL substates

**Optimal dilutions should be determined by the end user.**

**Purity:**The antibody was purified from antisera by immunoaffinity chromatography using antigens coupled to agarose beads.

**Antibody Specificity:**Based on immunoelectrophoresis and/or ELISA,the antibody reacts with whole molecule goat IgG. It also reacts with the light chains of other goat immunoglobulins. No antibody was detected against non-immunoglobulin serum proteins.  
 The antibody may cross-react with immunoglobulins from other species.

**Expiration date:**Store at -20°C. Avoid repeated freeze / thaw cycles.The expiration date may be extended if test results are acceptable for the intended use.

**Note:**For in vitro research use only,not for diagnostic or therapeutic use.This product is not a medical device.
