

# CERTIFICATE OF ANALYSIS

Product Number: PMK0448  
Lot Number: 2501170002  
Manufacture Date: Jan 2025

## Product Information

	Product Name: ECL		
<b>REF</b>	Catalog Number: PMK0448	<b>LOT</b>	Lot Number: 2501170002
	Validity: Twelve months		Inspection date: Jan 2025
	Storage: Store at 4 °C		Note: None

## Appearance Requirement

Components	Size	Vessel	capsule	Sensitivity
ECL A	50mL	White bottle	White bottle	Light gray liquid
ECL B	50mL	Brown bottle	Brown bottle	Colourless liquid
instructions	1	/	/	/

**Requirements:** The product is complete in appearance, sealed, no leakage, and complete in reagent.

## Quality test

Performance Criteria	Specification	Result
Test	Meets specification	Pass
Stability	3 days, 37 °C	Pass

## experimental method

Luminescence Test	Three times
PH	Meet standard

## detection rule

Group	Take products of the same specification produced at one time with the same batch of raw materials as the same batch.
Sample	Random sampling from the same group of batches, the sampling of reagents is based on HG/T3921-2006

Each batch of products shall be inspected according to this standard. Only after passing the inspection, they can be entered into the qualified area of semi-finished products. If one of the inspection results is unqualified, the second sampling reinspection is allowed. If the reinspection is still unqualified, the batch of products will be judged as unqualified.
